

# The American Institute of Architects Continuing Education Systems

## AIA/CES Registered Provider Program Summary Handout

---

**Provider:** Buechel Stone Corp. (T094)

**Length:** 1 hour

**Program #:** BSC301

**Credits:** 1 LU hour

**Program:** Natural Thin Veneer:  
An Affordable, High-Quality Building Choice

**HSW:** No

---

**Description:** This program will give participants a better understanding of natural thin stone and how it is used. Participants will learn how to identify the qualities of natural stone and different quarrying processes, review the fabrication of natural stone, and learn about thin veneer installations.

**A/V Needs:** Electrical power and screen for the PowerPoint presentation. The CES facilitator will supply the projector and laptop.

**Learning Objectives:** After completion of this course, participants will be able to:

- Identify the qualities of natural stone
- Identify different quarrying processes
- Better understand the natural stone fabrication process
- Better understand thin veneer installations

**Target Audience:** Architects, specifiers, developers and other design professionals. The ideal audience size can be 10-50 people. This is a thorough program that meets the needs of professionals at every experience level.

**How Taught:** The CES facilitator utilizes a PowerPoint presentation to provide an in-depth review of the following: identification of the qualities of natural stone, identification of the different quarrying processes, review of the fabrication process of natural stone, review of the installation patterns and strategies of natural stone, and an introduction to new installations such as thin veneer.

**Facilitator Qualifications:** All Buechel Stone Corp.'s facilitators have been trained on CES guidelines and presentation skills. In addition, they receive continuous in-depth training in the field and are considered industry experts.

**Costs:** There is no cost to bring this program into your firm or chapter meeting.
